 **Tile**

Tile (DMX) **PA-TI-50000**

Tile (RF) **PA-TI-20000**

The Tile is a frameless LED lighting panel, perfectly suitable for adding an exceptional colorful touch to any indoor facility. With its compact size and flat design, the Tile can easily be installed on any flat surface, providing its user with a high degree of flexibility for its application.

Controlled via sophisticated DMX technology or RF remote control, the Tile allows for the emergence of unlimited colorings and fascinating lighting scenarios, creating any ambience from cozy lounge to vibrant energy.

Whether applied individually or interconnected with additional units, the Tile is certainly an eye-catcher and transforms even the most monotonous environments into a beautiful colorful landscape.
