Tile 64PXL Matrix (DMX) **PA-TI-50200**

The Tile 64PXL Matrix is a ground-breaking lighting innovation that is categorized half way between an LED light and an LED screen. Composed of clearly separated and individually addressable pixels, the panel allows fascinating plays of various colorings for the picturing of clearly defined shapes, moving text as well as video animations.

Designed for large scale installations, this extraordinary lighting panel unfolds its full effect best in complex or unconventional settings. Controlled by advanced DMX technology, the Tile 64PXL Matrix provides a great variety of functions allowing for the creation of stunning and mesmerizing light displays in any environment.
