## ➤ Tile XB

Tile XB (DMX) **PA-TI-50100**

Tile XB (RF) **PA-TI-20100**

The Tile XB is an innovative frameless LED panel, ideal for colorfully enriching architectural creations of all kinds. While the Tile's compact physical dimension coupled with the possibility of being interconnected with various additional units provide its user with a high degree of flexibility for its application on any flat surface, the Tile's composition of high performance LEDs warrants the colorful accentuation even of bright surroundings.

Controlled by DMX technology or RF remote control, the Tile XB permits the generation of any imaginable coloring as well as fascinating color-changing lighting scenarios.
